

Your Quick Guide to Dynamics 365 Business Central for the
Schools and Academies

Microsoft Dynamics 365
Business Central

What is Microsoft Dynamics 365 Business Central?

Microsoft Dynamics 365 Business Central is a business management solution that allows you to fully automate and streamline your business processes.

Business Central is versatile and flexible enough to be specifically tailored to meet your business requirements, providing scalable functionality to support all business processes, as well as being easy to use and quick to implement. Microsoft Dynamics supports hundreds of thousand companies worldwide with a range of solutions to fit every requirement.

How Microsoft Dynamics 365 Business Central can support companies in education sector.

Microsoft Dynamics 365 Business Central offers a single, fully-integrated solution for schools & academies that's been tailored by Microsoft partners with specialist knowledge of the sector.

Microsoft Dynamics 365 Business Central, in tandem with bespoke developments by our partners, provides fully-scalable, purpose-built school management solution design to help you record and monitor a range of financial requirements. Business Central enables schools and academies to improve efficiency through better reporting, streamlined financial processes and seamless budget management.

Microsoft Dynamics 365 Business Central gives you real-time information, 360° visibility, and faster, more accurate reporting which you can access anytime, anywhere, as well as complete compliance with DfE and HMRC.

Key Benefits

- Accurate budget forecast for projects across all departments
- Flexible deployment that meets your specific needs
- Single database for all automated purchase orders and payment processes
- Accurate full and partial VAT reporting
- Fully compliant with Department for Education and HMRC
- Integration with all other Microsoft solutions, such as CRM, SharePoint and Office365
- Streamlined financial processes, making it easier and faster to input data
- Full visibility on performance across all departments

Microsoft Dynamics 365 Business Central offers everything a business needs to effectively manage growth, boost efficiency and increase profitability.
