

Your Quick Guide to NAV for the Not for Profit/Charity Industry

What is Microsoft Dynamics NAV?

Microsoft Dynamics NAV is a business management solution that allows you to fully automate and streamline your business processes.

NAV is versatile and flexible enough to be specifically tailored to your business requirements, providing scalable functionality to support all business processes, as well as being easy to use and quick to implement. Microsoft Dynamics NAV currently supports over 300,000 companies worldwide with over 2 million end users.

How NAV can support companies in the not for profit/charity industry.

Microsoft Dynamics NAV offers a single, fully-integrated solution for the Not for Profit & Charity sector that has been tailored by Microsoft partners with specialist knowledge of the industry.

Microsoft Dynamics NAV and our partners' developments offer you more control over your financials, accurate budget forecast and fund allocation with a fully-compliant audit trail in line with SOFA and SORP. NAV includes real-time information for better, faster reporting, giving you more insight into fund accounting, budget management, donation tracking, grant management, and expense management.

Microsoft Dynamics NAV is a vital tool for Not for Profit & Charity organisations. You can experience significant improvements in managing and sharing information across all departments, allowing you to make better decisions about how to spend your money.

Key Benefits

- Fully compliant with industry reporting regulations for SORP & SOFA
- Accurate budget management and tighter control over spend on projects
- Track fund accounting and donations
- Better collaboration with seamless integration between departments sharing information
- Record all your fundraising opportunities and monitor progress
- Ability to allocate VAT up to submission with special coding structure
- Gain better insight into financial data to improve profit & loss reports
- Real-time access to information for more effective reporting

Microsoft Dynamics NAV offers everything a growing business needs to effectively manage growth and increase efficiency and profitability.
