

Your Quick Guide to NAV for Schools and Academies

What is Microsoft Dynamics NAV?

Microsoft Dynamics NAV is a business management solution that allows you to fully automate and streamline your business processes.

NAV is versatile and flexible enough to be specifically tailored to your business requirements, providing scalable functionality to support all business processes, as well as being easy to use and quick to implement. Microsoft Dynamics NAV currently supports over 300,000 companies worldwide with over 2 million end users.

How NAV can support companies in the schools and academies industry.

Microsoft Dynamics NAV offers a single, fully-integrated solution for schools & academies that's been tailored by Microsoft partners with specialist knowledge of the sector.

Microsoft Dynamics NAV and our partners' developments offer you a fully-scalable, purpose-built school management solution to record and monitor all financial requirements. NAV allows schools and academies to be more efficient, with better reporting, streamlined financial processes and effective budget management.

Microsoft Dynamics NAV gives you real-time information, 360° visibility, faster, more accurate reporting when you need it and complete compliance with DfE and HMRC.

Key Benefits

- Accurate budget forecast for projects across all departments
- Flexible deployment that meets your specific needs
- Single database for all automated purchase orders and payment processes
- Accurate full and partial VAT reporting
- Fully compliant with Department for Education and HMRC
- Integration with all other Microsoft solutions, such as CRM, SharePoint and Office365
- Streamlined financial processes, making it easier and faster to input data
- Full visibility on performance across all departments

Microsoft Dynamics NAV offers everything a growing business needs to effectively manage growth and increase efficiency and profitability.
